Junior Data Analyst | SQL | Excel | Power BI | Python | Data Validation

PROFESSIONAL SUMMARY

Management Information Systems graduate focused on Data Analytics and Business Intelligence, with hands-on experience in SQL, Python, Excel, Power BI, data validation, and operational reporting. Experienced in cleaning and modeling datasets, developing KPIs, analyzing business performance, and translating findings into actionable insights. Built end-to-end analytics projects covering e-commerce operations, customer experience, and product analytics, alongside practical experience working with transaction and operational data.

EXPERIENCE

Fintech Intern – E-Wallet & Data Reporting — *Libya Guide (GPay), Tripoli, Libya* Jan 2026 – Mar 2026

- Validated daily transaction records using SQL and Excel to maintain data accuracy and support reliable e-wallet operations.
- Investigated and documented 20+ logical inconsistencies across transaction and backend records, supporting data-quality improvement and troubleshooting.
- Assisted with database-related checks and reconciliation tasks, helping identify mismatched, duplicate, and incomplete records.
- Organized operational data into structured formats for reporting and follow-up.

Information Systems Intern — *Medhorizon Aviation Services, Tripoli, Libya* Jun 2025 – Oct 2025

- Built 5+ automated Excel dashboards for operational reporting, reducing weekly manual data-processing work by approximately 8 hours.
- Prepared 12+ analytical and operational reports for sales and operations stakeholders.
- Reviewed business workflows and identified three key bottlenecks, translating findings into practical process-improvement recommendations.
- Worked with operational data from multiple sources and helped ensure reporting outputs were accurate and consistent.

PROJECTS

Olist E-Commerce Operations & Customer Experience Analytics — Python, PostgreSQL, SQL, Power BI | [GitHub](#)

- Analyzed **99K+ e-commerce orders** through an end-to-end analytics workflow covering data cleaning, validation, relational modeling, SQL analysis, KPI development, and Power BI reporting.
- Identified an **8.11% late-delivery rate** and a **1.72-point difference in average review scores** between on-time and late orders, then analyzed delivery-stage, geographic, seller, and product-category patterns.
- Built a **3-page Power BI dashboard** covering executive KPIs, delivery & customer experience, and seller/category performance, translating analytical findings into operational recommendations.

Learnofy | Product Analytics — SQL, Python, Pandas, KPI Design — [GitHub](#) | [Live Demo](#) 2026

- Developed a product analytics layer for a student and café platform, analyzing engagement, retention, study activity, feature usage, and promotion performance.
- Built standalone SQL analyses, a Pandas exploratory-analysis notebook, KPI definitions, data-quality documentation, and visualizations using a structured synthetic dataset based on the application schema.

TECHNICAL SKILLS

Data & Databases: SQL, Relational Databases, Snowflake, Data Cleaning, Data Validation, Data Reconciliation, Data Quality

Analytics & Reporting: Excel, Power BI, Tableau, Dashboard Development, Trend Analysis, KPI Design, Product Analytics, Operational Reporting **Technical:** Python, Pandas, REST API Fundamentals, GitHub, Odoo ERP

Business: Requirements Analysis, Process Improvement, Technical Documentation, Stakeholder Communication

AI & Productivity Tools: Claude, OpenAI Codex, Gemini – workflow automation and prototyping

Languages: Arabic (Native), English (Fluent), Turkish (Intermediate)

EDUCATION

Bachelor of Science in Management Information Systems (MIS) — *Istanbul Bilgi University, Turkey* Graduated 2026

Relevant Coursework: Data Analytics for Business, Database Management, Algorithms & Programming, Systems Analysis & Design I & II
